"All experiences from IPSR are very useful for my career."

Farid Agushybana, Indonesia
Head of Biostatistic and Population Study Department
at Faculty of Public Health, Diponegoro University

"I am very impressed with what I learned from the Ph.D. Program (Demography) at IPSR, Mahidol University; especially the skills of Ajans and family-type enabling environment. I’m very confident about my professional career as IPSR trained the students with an international standard. It was an amazing moment for me and thank you very much to IPSR."

Min Ko Ko, Myanmar
Associate Professor Population & Family Health Department
University of Public Health,
Yangon Myanmar Ministry of Health & Sports

"I finished my Ph.D. studies from IPSR in 2013. My student life was very memorable. I truly enjoyed the research field trips I took with my classmates during the pre-doctoral training and in my doctoral studies. All of IPSR’s lecturers are experts in their fields; thus, they have equipped me with the necessary skills and experience enabling me to make a difference, both personally and academically. Since 2013, I have been able to advance my career—thanks a lot to our IPSR faculty and staff."

Mary Rose G. Sarausad, Philippines
Lecturer, Asian Institute of Technology
The Ph.D. Program in Demography is the first international program in Thailand that provides doctoral-level training in demography. The program aims to produce social scientists who have knowledge in demography and contemporary topics and issues with strong skills in statistical and demographic techniques and research methodology.

The Program offers opportunities for professional careers in universities and international organizations, as well as a path to career advancement and collaboration both in Thailand and abroad.

IPSR provides a research environment where faculty members come from a range of disciplines including demography, sociology, economics, anthropology, political economy, etc. Students will be able to work with a research team in an excellent research environment.

SCHOLARSHIPS
Outstanding applicants may be selected for full scholarships under the Royal Golden Jubilee Scholarship Program (for Thai students only), for partial scholarships from IPSR, or for Research Assistantships and Thesis Scholarships from the Faculty of Graduate Studies. However, applicants are strongly encouraged to seek funding support from other sources, as only a limited number of scholarships are available.
